ABOUT ME

Am a hardworking, passionate and dedicated team builder and member intrigued with providing solutions through technology. Am a self-driven individual with 2-years experience in the software development field especially in the front-end web-development. Am a tech enthusiast with fascination in the field of Artificial Intelligence and Data Science using python.

Am a full stack developer and UX/UI designer with expertise in both the front-end and back-end development. In my front-end development area, am experienced in the WordPress, Bootstrap, Angular, React and Vue.js frameworks. For the back-end area, am vast in Node.js and PHP Laravel Framework while in design work, am adept with the Adobe XD tool for design. I'm not only capable of building real time projects but also responsive applications that suit the changes in the market.

I have worked with Oaknet Business Company where we worked on various real time projects including the Amal Investment platform and the FYX application platform. Became the team leader of the front-end developers' team where was able to exercise my team building and leadership skills. Apart from this, i have also worked on an accounts management system, BlueShoulder resort website, Sacco system and currently working on financial system for sales and returns at FREDOR INVESTMENTS in Voi town.
.

WORK EXPERIENCE

FREDOR Investments

Senior level | Accounts manager and Tech support
VOI , Kenya
2023-01-01 | Currently working here

Got hired at FREDOR Investments as an Accounts manager and Tech support from January 2023 to date. As an accounts manager, am tasked with the balancing of all the financial statements of the company. This involves taking into account the products that went for sale, the returns received back and the sales amount brought to the company by the sales ladies. Am also tasked with the auditing of the financial reports and providing expert advice on the route the company should take to increase on productivity.

As an Tech support, I'm tasked with the troubleshooting of office computers and gadgets i.e. printer and office phone. I also maintain the CCTV cameras ensuring they are all functioning properly and appropriately without break-downs. This helps in monitoring and keeping track of the products both in the store and also in the warehouse.

IEBC

Entry level | Election Clerk
Nairobi , Kenya
2022-08-01 | 2022-09-01

Was privileged to take part in the 2022 general elections in Kenya as a polling clerk. Under this docket was able to work with the KIEMS kit for voter identification purposes. Was able to carry out the task and help in trouble shooting the KIEMS kit in the case where they failed with my IT background.

Oaknet Business technologies

Volunteer, internship | Front-end developer
Nairobi , Kenya
2022-01-01 | 2022-04-01

Secured a chance for an industrial attachment with Oaknet Business and was placed in a team of front-end developers. We managed to work on the AMAL investment platform during that period. Was later made the team leader and we were able to work on the FYX platform program. Gained skill in React, Bootstrap, Vue.js and Angular.js front-end frameworks. Also made it in my interest to learn the working of back-end and learned Node.js and Php Laravel backed framework.

Machakos University

Volunteer, internship | Career Ambassador
Machakos , Kenya
2021-05-01 | 2022-12-01

Applied and was shortlisted among the few to work in partnership with the career office of Machakos Univeristy as a Career ambassador. The job description entails giving career guidance to students on their career path and the available market offers for them. It bridges the gap between the students and the real time market place and aims to sharpen the perspective of the students in preparation for the same. We also take part in guiding and counseling of the students with various and different academic issues.

Upwork

Entry level | Freelancer
Remote , Kenya
2021-02-01 | Currently working here

I'm currently working as a software developer specialised in front-end development freelancer on different freelance platforms including Upwork, Freelancer, Fiverr, Toptal and Linkedin. The experience has been awesome as it pushes me to learn and explore more. Got my first Upwork

deal in 2021 where was contracted to take part in an AI Image recognision project by Pactera adge

Madam Medina

Entry level | Shop attendant
Bungoma , Kenya
2020-05-01 | 2020-08-01

This was during my school long holiday where was contracted to work as a shop attendant. In the line of work, the duties delegated to me were more than just the "attending to customers" thing. Under my belt was the whole management of the business including the M-pesa management. Did stock purchases and updates for the store and deliveries too. Was always in-charge of the daily financial record keeping for audits on weekly basis.

Chemwa Secondary

Entry level | Teacher
Bungoma , Kenya
2018-01-01 | 2018-08-01

Was contracted to be a board teacher with Mathematics, Physics and Chemistry combination. Taught the form one class physics and Mathematics subject combination. For the form two class, i was priviledged to take them through Chemistry and Physics combination and for the form three class, i took them through Mathematics and chemistry combination.

EDUCATION

Machakos University

Bachelor | Bachelor in Computer Science

Finished my course work in Machakos University as a computer scientist in 2022. Am passionate about software development especially front-end development. I'm a fast learner and can adapt to any environment. Have worked on real time projects during my attachment period at Oaknet Business where I gained the necessary skills in development including team work. Personally have also worked on other personal projects of my own to sharpen my skills and gain more experience.

Currently am undertaking a certification with Huawei in Cloud computing just to widen my scope of view in the field. Also received a software Engineering scholarship under Adanian Labs in partnership with the Family Group Foundation. The program is still ongoing for a certification as a software Engineer.
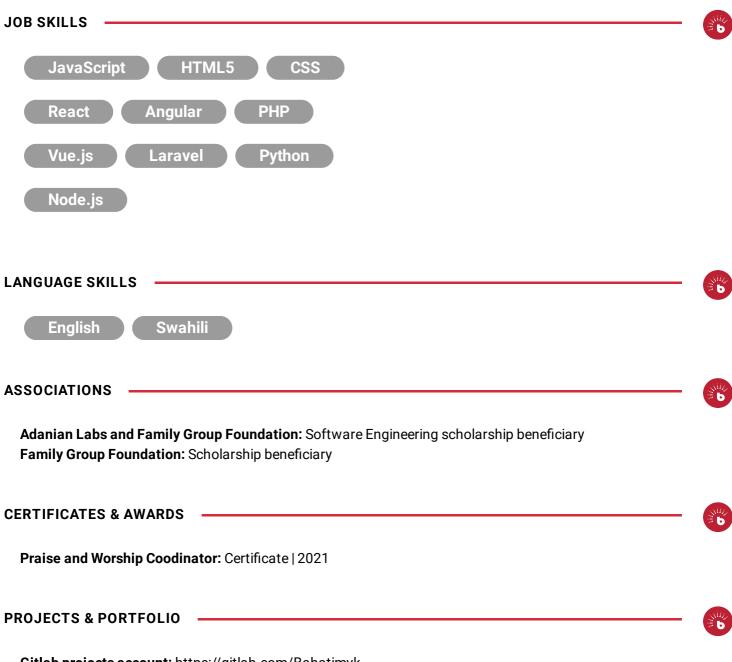

Musingu Boys High School
